## PROFILE

Highly motivated individual with a keen interest in contributing to professional environments. Eager to learn, adapt, and excel with a proactive approach. Enthusiastic about acquiring new skills and making a positive impact through dedication and a commitment to growth.With rigorous training and a commitment to excellence, I am confident in my ability to tackle and successfully execute any complex and challenging task.

## PROFESSIONAL EXPERIENCE

**Data Science Intern,** *CodeClause*                                                                                                    Jun 2023 – Jul 2023
- Performed data visualization and implemented various machine learning algorithm.
- Implemented machine learning models using Python.

**Developer Intern,** *Salesforce*                                                                                                         May 2023 – Jul 2023
- Accoutered Apex code to customize and extend the functionality of the Salesforce platform.
- Constructed business logic, performed complex calculations, and interact with Salesforce data and processes.

**AI-ML Virtual Intern,** *Amazon Web Service*                                                                                  May 2023 – Jul 2023
- Demonstrated expertise in cloud computing fundamentals.
- Proficient in utilizing Artificial intelligence and machine learning techniques.

## PROJECTS

**Employee Attrition Rate Prediction,** *[ Stacked BLSTM , Pyhton , Jupyter ]* 🔗                              Jan 2023 – Jul 2023
- Implemented Stacked BLSTM model to accurately predict employee attrition rates.
- leveraging deep learning and sequential data analysis, for effective workforce planning and retention strategies

**Sentiment analysis of COVID -19 tweets,**                                                                                      Jan 2024 – May 2024
*[ NLP, Machine Learning , Sentiment Analysis, Seaborn ,Math Plot ]*
- Explores Logistic Regression, Decision Tree, XG Boost, KNN, SVM.
- Logistic Regression with Grid Search CV leads in performance.

## SKILLS

**Technical Skill**
C++, Java, Python, R-Script, HTML, AI-ML, SQL, Excel, Linux, Shell scripting

**Soft Skill**
Analytical skill , Problem Solving, Communication, Logical thinking

## COURSES

**Preplacement  Training,** *Cisco*                                                                                                         Jun 2023 – Jul 2023
- CCNA, Cybersecurity, Programming Essentials in Python.

**Artificial Intelligence,** *Teachnook*                                                                                                  Sep 2022 – Dec 2022
- Natural language processing, data analysis, Types of AI Models, Modern Use of AI.

## CERTIFICATES

**HackerRank Problem Solving Intermediate Certificate** 🔗

**AWS Academy Graduate - AWS Academy Cloud Foundations** 🔗

**Cybersecurity Essentials** 🔗
Issued by Cisco

**PCAP: Programming Essentials in Python** 🔗
Issued by Cisco

## EDUCATION

**B.Tech. ( Information Technology ),** *Kalinga Institute of Industrial Technology (KIIT)*                   Sep 2020 – Sep 2024
- CGPA - 8.83                                                                                                                                             Bhubaneshwar, India

**Intermediate,** *Tamluk Hamilton High School*                                                                                                     Jul 2020
- WBCHSE - 81%                                                                                                                                             Tamluk, India

**Matriculation,** *Vivekananda Mission Asram Sikshayatan*                                                                             Apr 2018
- WBBSE - 92%                                                                                                                                                 Haldia, India
